#### About AITM

Angadi Institute of Technology & Management (AITM), Belagavi was established in the year 2009 under the banner of "Suresh Angadi Education Foundation" (SAEF: Est.-2008) Chaired by Shri Suresh C Angadiji, Hon'ble Member of Parliament (Lok Sabha) from Belagavi. SAEF is comprises of many Educational Institutions Angadi International School (CBSE), Angadi College of Commerce and Science, Angadi Institute of Technology and Management — BE, M.Tech. MBA and Second Shift Diploma & Angadi School of Architecture.

Angadi Institute of Technology and Management is located just 2 km from the City spread over 30 acres of land and flourishing with a Green Scenic Beauty with pollution free environment in and around the campus. It has beautiful premises with state of the art Infrastructure, modern amenities and facilities to cater more than 2000 students. AITM provides an excellent atmosphere for the students for Studies, Research and overall growth. A judicious blend of curricular, co-curricular and extra-curricular activities is offered to ensure all-round development of the students. High standards of discipline is maintained in the campus to attain perfection in the quest of achieving outstanding position in the field of Education.

Karnataka's 1st "Solar Powered" Educational Institute

"Excellent Contribution in Education"

Award in

II <sup>nd</sup> National Karnataka Education Summit & Awards 2016.

#### **About the Department**

The Department of Civil Engineering has been in existence since the inception of Angadi Institute of Technology & Management in 2009 and has grown into a full fledged department with specializations in all the major areas of Civil Engineering. The Department contributes to the interdisciplinary academic and research activity of the Institute. The Department of Civil Engineering offers M.Tech. in "Wastewater Management, Health and Safety Engineering" with uniqueness of being the only college offering M.Tech under VTU affiliation.

#### **About the Workshop**

The programme is aimed at enabling the participants to understand the basic principles of Remote Sensing and GIS.

To acquaint the participants with India's Space program and highlight the applications of Remote Sensing & GIS in Natural Resource Management. Demonstration for the use of software ERDAS & MAPINFO and other GIS

### Topics to be covered

Basic principles of Remote Sensing, Sensors and its platforms, Indian Space Program and Applications of Remote Sensing, GIS fundamentals, Data Structures and DBM, GPS - Concept and applications, RS & GIS applications in Civil Engineering.

Simultaneously the program will be broadcast live through a webinar that can be accessible to all parts of India.
