Head of the Institute	Message
 <p>Dr. Anand Deshpande Principal & Director, AITM</p>	<p>An Institute is assessed on the basis of the Academic ambience and outcome of the system in terms of performance and achievements of the students and staff in teaching-learning, research, innovation, Placements, and results. AITM has been known for its Academic credentials coupled with holistic growth in all directions. The new generation of competent minds must imbibe knowledge and practically they should comprehend the art of balancing brilliant technical, managerial communication, and interpersonal skills, nest. The Institute has achieved a series of milestones with the help of brilliant students, dedicated staff, and encouraging Management. We promise a wonderful experience of rich Academic and Excellent facilities coupled with professional practices and blended with an affectionate concern for our Students.</p>
Head of the Department	Message
 <p>Mr. Raviraj Chougala HOD</p>	<p>Welcome to the department of Electronics and Communication Engineering at Angadi Institute of Technology and Management, Belagavi. The Department was established in the year 2009 with the aim of providing leadership in the field of Electronics & Communication Engineering with an intake of 60 students. The department is located in a sprawling environment with a state of art facilities and highly qualified faculty. The department works with the objective of addressing critical challenges faced by the Industry, Society and the Academia. Perhaps even more important is our unceasing commitment to our students, helping them to learn, grow, develop, and achieve their goals in their pursuit to excel in their professional career.</p>

Institute Vision and Mission

Vision:

To become a premier institute committed to academic excellence and global competence for the holistic development of students.

Mission:

- M1: Develop competent human resources, adopt outcome-based education (OBE) and Implement cognitive assessment of students.
- M2: Inculcate the traits of global competencies (such as domain expertise, Accountability, ethics, problem solving ability, communication skills, leadership Qualities and life-long learning) amongst the students.
- M3: Nurture and train our students to have domain knowledge, develop the qualities of global professionals and to have social consciousness for holistic development.

Department Vision and Mission

Vision:

To impart quality and responsive education in Electronics and Communication Engineering for the overall development of students to meet the global challenges.

Mission:

- M1: Adopt a transformative teaching-learning pedagogy to empower our students with domain knowledge and practical skills in resonance with technological developments.
- M2: Impart multi-disciplinary knowledge, and train our students to develop the relevant professional competency skills.
- M3: Create a cogent ambiance to comprehend the technical and management principles, and the efficacy of life-long learning.

Technical Talk on “Importance of Projects”

The department of ECE organized a technical talk on “Importance of projects in academics” on 5th September 2019 by Mr. Rakesh K., Texas Instruments, Bangalore. Projects help us become better learners and better engineers. The bridge between the theoretical aspects and real world is project-based learning. Doing more projects builds the problem-solving skills. Projects are not just about making something new and fancy. It can be something very basic and simple or improvising on the existing things. The skills that we learn by doing projects make us better prepared for the industry. The main constraint is time and time management are a skill that projects teach us.

Mini Project Exhibition

The department of ECE organized mini project exhibition by final year students on 27th September 2019. Mini projects for engineering students give an edge over the race of recruitment to work hard to ensure a good career. The importance of making mini-projects cannot be over stressed. In spite of employment practices in recent times, students are progressively taking up mini-projects to pad up their skill-set, whereas hobbyists like the fun in meddling with technology.

Department Association Inauguration

The objective of Association is to guide the individuals in making adequate educational, occupational choices and in taking career decisions based on the demand and requirements of the future of work. The Department of ECE inaugurated the association for the academic year 2019-2020 on 18-09-2019 at Angadi Institute of Technology and Management at 11.00 am. Mr. Sugreev Tangade, SMAT Enterprises, Hubballi, was the guest of Honour. Dr. Sanjay Pujari, Principal and Director, AITM presided over the function. Head of the Department, Faculty members, Student Association Co-Ordinator and all students were present.
